Portfolio: www.oisinbyrne.me

Education:

- **Leaving Certificate: 540 points 2011**
- **Trinity College Dublin: II.I Degree in Economics & Geography 2015**
 - Trinity ambassador for my home county, Kildare
 - Appointed to the Dean's Roll of Honour for commitment to extracurricular activities
 - Nominated for best individual effort 2013-2014 by Central Societies Committee
 - Awarded best undergraduate essay in geography 2014
- **International House Dublin: CELTA - B Grade 2018**
- **Dublin City University: Certificate in Computer Programming 2019 - Distinction**
- [The Odin Project](#) - Full Stack Javascript 2020 (*details below*)

Web Development:

- [The Odin Project](#) - Full Stack Javascript
 - In early 2020 my employment was affected by Covid19. I then decided to invest my time in learning web development.
 - Completed the self-taught Full Stack Javascript path in December 2020.
 - You can see some of my work here: www.oisinbyrne.me
- Front-end Tech Stack I have worked with:

Frameworks: Vue & React	Compilers: Babel
Templating: JSX	Formatters: Prettier
Package Manager: NPM	Linters: ESLint
Version Control: Git	Testing: Jest
Bundler: Webpack	Hosting: Github, Netlify
Database: Mongo DB	CSS/UI Frameworks: Material UI
- Back-end Tech Stack I have worked with:

Environment: NodeJS	Encryption: Bcrypt
Frameworks: Express	Object Modelling: Mongoose
Templating: Ejs	Environment Variables: Dotenv
Version Control: Git	Utilities: Nodemon, REST Client
Hosting: Heroku	Database: MongoDB, Google Firestore
Authentication: Google Firestore, Passport JS & JSON Web Tokens (JWT)	

Work Experience:

- **Freelance Full Stack Web Developer - (February 2021 - present)**
 - First client was The Sounding Board - <https://tsbcoaching.ie>
 - I was the sole developer on this site, building the entire front-end, back-end, client CMS and managing the hosting and domain transference / integration.
 - Main tech stack used for this project:
 - React - NodeJS/Express - Firebase - Heroku - Netlify
 - I worked with a professional designer, building the front-end to a design specification while liaising with them on points about UI, UX and useability.
 - As this app uses a bespoke design that changed regularly throughout development, the styling was done without a CSS framework, all coded directly by me.
 - I currently have additional clients, but I am looking for a junior developer role
- **ESL Teacher - International House Dublin (May 2018 - May 2020)**
 - I worked as an ESL teacher, designing, creating, and delivering lessons to students from different countries of every level (A1 - C2).
 - I was involved in editing and designing appropriate syllabuses for classes.
 - I invigilated formal examinations (Trinity ISE, Cambridge English FCE/CAE)
 - I was also involved in the training and orientation of new teachers.
- **Digital Marketing Analyst - Segmatic (September 2017 - March 2018)**
 - I worked as a 'paid search' analyst specializing in Google Adwords
 - I was responsible for a client's Ireland, Australia and New Zealand accounts.
 - I analysed the keyword performance, managed the ad creation and I was responsible for the budget across all the ad campaigns within the account.
 - I also generated reports based on KPIs such as CTR, ROI and Ad position.
 - This role had a strong Excel focus: pivot tables, index matches, reporting
- **Work & Holiday Visa, New Zealand (August 2016 - July 2017)**
 - Vineyard worker / Hostel Management
- **Risk Analyst - Opus Fund Services (January 2016 - June 2016)**
 - Was a previous recruitment client that offered me a job
 - I worked with the risk team, as well as liaising with the compliance, banking, investor relations and legal teams on a number of projects.
 - I designed process documentation and training manuals for new employees within the company, and supervised the updating of previous policies.
 - I led the remote training of new employees in the Philippines.
- **Lincoln Recruitment - IT Recruitment Consultant (November 2015 - January 2016)**
 - Versatile role consisting of Business Development, client & candidate meetings, achieving sales targets and database management.
- **Hamilton Library - Library assistant, Trinity College Dublin (September 2012 – November 2014)**
 - Role required reliability, punctuality and precision.
 - Further experience in working in teams and over-time becoming a senior member, where I assisted in the training of new employees.

Additional Skills

- Experience working with Python and Java programming languages
- MS Excel: Pivot Tables, Index Matches, Report Generation
- Audio editing - Garageband, Audacity
- Video editing - iMovie, Final Cut Pro
- Photo editing - Adobe Photoshop, Affinity Photo
- Some experience with eLearning software - Articulate, Rise
